Election Tuesday, Nov. 5, 1901.

The Morning Herald of Lexington came out last Sunday with a colored cover and humorous supplement. Under the management of Debra Breckinridge, The Herald is forging to the front in all up-to-date features, and Col. Breckinridge's editorials bring one back to the time of Prentice of the Louisville Journal, and Daniel Carmichael Wickliffe of the Lexington Observer & Reporter. Col. Billy is the finest editorial writer in the south, and his editorials are copied far and wide by reason of their comprehensive conservatism.

The attention of our farmer friends is directed to the Angola goat article which appears elsewhere in this issue. Every farmer who has brush land and can afford to buy a few of these goats to start with can in a few years be independent. They are a gold mine in the sense of revenue and being the most healthy are always safe to invest in.

John Evans has accepted a position with the Hagan Distilling Co., Lexington, and is now on the road selling their goods. As long as whiskey is made it will be drunk, and if a man must drink he should drink the purest that can be made. That is the kind Mr. Evans is selling. Not for gain or glory could Andy Hagan be induced to adulterate a liquor coming from his house, and when you buy of him or Mr. Evans you are sure to get the pure stuff. Hagan's Rye is as mild as milk, and the purest article for pulmonary troubles ever used by any one. Another thing, if you never drink anything but Hagan's liquor, you will never go wrong. It creates a contented, happy feeling, where other liquor would make you fighting mad.

Remember the annual meeting of the West Liberty District will convene with the Salem church on Thursday afternoon the 12th inst., at 2 o'clock. The sessions of Thursday and Friday will be devoted to Sunday school work, and will be conducted by Robt. M. Hopkins. Mr. Hopkins will give Bible study at each session on Saturday and Sunday, and will have charge of the singing. Let all Sunday school workers attend the sessions of Thursday and Friday. Let all Christian people attend all the sessions. Remember the dates, Sept. 12-15. Wm. H. Carr, Chr.

DON'T MALIGN THE MOUNTAINS

"Aye, you behold the 'Maid O' Dundee,' rosy-cheeked, blue-eyed and curly-topped, but alas! expressionless. The utter voracity of the mountain countenance is a study. The children are almost universally pretty, but each added year seems to take away something that was, and leaves only a blank behind."

The above extract is from a letter in the Lexington Morning Herald of August 28th, and was written by Mrs. E. V. Potts, who was then sojourning at Torront. Had it been penned by some ordinary pennyliner THE HERALD could have passed it in silence and considered the source. But, coming from a lady of Mrs. Potts' attainments—a lady of ability and affability—we feel it incumbent to refute the implied insult to native intellect. In fact, the extract is erected of error entire except "the children are almost universally pretty." "But alas! expressionless," she says. Now, we do not believe Mrs. Potts intended to insult the people of the mountains in this implied insult to their intellect, nor do we know what conceived the thought. However, that her assertion is absolutely false and the very reverse of the facts, is plain to all who have knowledge of the youth of this land. Instead of being "expressionless," intelligence sparkles upon the countenances of our native children like dew drops scintillating under an early morning sunbeam. The children are as quick to learn, or may be quicker, than a like class in any community in the commonwealth. Had Mrs. Potts been present Tuesday morning when Prof. Cord formally opened Hazel Green academy for the present term, she must have acknowledged her error in toto. There was present 109 children, in age from six to 18 years, and no person, unless he or she were of that type "which leaves only a blank behind," could have failed to notice intellect in every countenance, and that, too, in chunks the size of an iceberg when the conditions of the mountains and of the bluegrass are relatively considered. For only a comparatively few years have the children of this section enjoyed educational advantages, and their environment tended more to evil than education. On the other hand the bluegrass section has possessed these advantages in liberal measure for well nigh a century. Yet it was only a few years since that Henry L. Godsey, a native of this town, and a former student of the academy, captured the intercollegiate prize in oratory and followed with the Chataqua prize. James H. Swango, also a native and a student, came a year or so after and won both of these prize contests, which he supplemented by winning the inter-state oratorical contest at the World's Fair, Chicago, in which 18 states were represented. Joe Taulbee, a native of the adjoining county of Morgan, and an academy student, won the declamatory contest in the bluegrass league of colleges, held at Harrodsburg in 1896 or '97, and now stands at the top in his class at West Point, N. Y. Out of 20 from different parts of the state who made application for state certificates in October, 1899, only three obtained them, and they were natives of this and nearby places, viz: Miss Lula Kash, John W. Taulbee and Ova Swango; all academy students. Then Miss Minnie Day, now Mrs. Eliza James, another native and student, was awarded a state certificate, accompanied by the state superintendent's letter stating that she had attained the highest average ever presented from any of the 119 counties, it being 96+ per cent. We note these cases simply to disprove the implied mountain imbecility in Mrs. Potts' letter, and if it were necessary could cite hundreds of instances similar to our oratorical and school-certificate winners. In every contest where native mountain intellect has been pitted against that of other sections the mountains have won, and we defy a denial. Intelligent ladies and gentlemen of the world at large, who have visited here from time to time, have time and again remarked in our presence: "See that bright face; I never saw so much intelligence expressed in a countenance as I have seen here among your children." And this has been universal with strangers visiting here, so that Mrs. Potts' ideal must have been an isolated imbecile, or she saw "through a glass darkly" when she wrote "expressionless" and "only a blank behind."

SAMPSON'S SOLILOQUY.

BY SAM WILSON.

I've roamed the high seas o'er and o'er
And touched at many a foreign shore.
Now I command a spanking fleet
No other nation on earth can beat.

'Tis true some battles I have seen
While rolling up and down the stream.
Methinks today, it signs are right,
There'll be a very devil of a fight.

For the Spanish fleet is lying today
Within the harbor of Santiago bay;
I ought no longer to hesitate,
But get ready soon to pull my freight.

Garcia gave the sign O. K.;
I'll soon steam up and move away,
Away from the fight that's going to be
Which makes the shakes creep over me.

Within thirty hours Cervera's fleet
Will make a break—a daring feat;
Then shot and shell will rent the air,
You bet your life, I'll not be there.

Be still my nerves, why tremble so,
Soon will I let the billows go
To seek employment better far
Than tackling Cervera and get a jar.

I'll sneak away while yet there's time,
Who knows, the glory may be mine.
When I come back, I'll have it in view;
Uncle Sam will see this hero through.

Despite the public, what they say,
Or what the press choose to display,
My name shall boom on history's page
As the great I AM, a noble sage.

Though in my absence, Schley may win,
But getting the praise, 'twill be too thin,
For I'm the pet of a big combine,
Which shoots the honor shall be mine.

Stood Death Off.

E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50 cents at J. Taylor Day, Hazel Green, or S. S. Combs & Sons, Campton, drug stores.

J. A. Newlan of Jackson was here this last week, putting up galvanized iron gutting to lead the water from roof to rain barrel, and did some work for THE HERALD homestead. He also put up some for Prof. Cord and for John M. Rose. While his work is first-class and the material O. K. he did only the three jobs mentioned. But that is because the people do not realize the benefits. Should any of our citizens in the future decide to have such work done we hope they will have Mr. Newlan do it.

Henry Pieratt bought all the picture frames the agent of the Chicago Portrait Co. had left over and is selling them 50 per cent cheaper than the agent sold them. The number is limited, and if you want one you'd better move in a hurry, as they are going like hot cakes. 52-1f

Prof. Cord is agent for the Grand Rapids (Mich.) School Furniture Works, and recently sold to the trustees of Caney public school 88 desks to furnish their new school building, which is a 2-story structure 24x50 feet. This desk is an automatic bicycle ball-bearing hinged affair and the best on the market. Trustees who desire to fix their schools up with the latest and best furniture should see or write Prof. Cord.

WANTED.—A position in school or family is desired by a lady graduate; experienced in teaching English branches, music and the languages. Testimonials given. Address, stating terms, Teacher, Box 84, Warrenton, N. C. 6-10*

Judge and Mrs. Swango will not go to Grassy Lick, as announced recently, that trade having fallen through. They are now here, but expect to locate at Spencer soon.

WANTED.—An agent in every county in Eastern Kentucky to sell White Sewing Machines. Hustling men are the only kind that need apply, and to them I can offer special inducements. Write to J. T. GEVON, Hazel Green. 4-2-43-1f.

Mrs. Ellen Swango and daughter Dora visited J. E. Quicksall and family from Thursday to Sunday.

A Family Reunion.

The friends of Abe and Chap Swango and others will meet at the graveyard at the Swango place above Stillwater bridge on the 13th to make some repairs to graves, clean up the brush, etc. There are seven of the Swango family buried there side by side, including Dave and Chap Swango, who were both captains in the confederate army and of the same company. Chap was killed not far from Campton, and Dave at Mt. Sterling. They were each members of the Eighth Kentucky at one time, and afterward belonged to the Tenth cavalry. On the occasion of this meeting at the graveyard the sword of Capt. Dave Swango will be on exhibition. Abe Swango was the father of Uncle Harry now an octogenarian and the grandfather of Captains Dave and Chap. There will be dinner on the ground, and a very large crowd is anticipated.

THE HERALD for 12 months and \$5,000 for \$1.00 is a great bargain awaiting the man who can figure the total vote of Ohio, Massachusetts and Iowa. See "Try Your Luck" on last page for particulars.

Miss Mable Croese, the music teacher at Hazel Green academy, has been confined to her home at Hiram, Ohio, for the past seven weeks with typhoid fever, and on that account was not present when the academy opened for business. Her brother and sister have also been down with the same fever, and at that point typhoid fever has been in epidemic form.

Every member of the church is urged to have a part in this good work of housing homeless congregations. Every congregation helped by our Church Extension Board becomes in turn a strong missionary church, and every dollar given for building churches is the means of raising three dollars on the ground. No disciple can afford to pass this matter by; it is the Lord's business; you cannot treat it thoughtlessly. Let us have a large offering to Church Extension on the fourth Lord's Day.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

You will find it just as useful in summer as in winter, and if you are suffering you don't stop because the weather is warm. SCOTT & BOWNE, Chemists, New York.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root, the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Birmingham, N. Y., and mention this paper.

Angora Goats.

The Angora goat is probably destined to become one of the most valuable of the domestic animals, and the recent manifestations being shown in behalf of the goats are something that they have long since deserved, and the growers have quickly grasped the opportunity to demonstrate the merits of the goat, and they have now almost entirely abolished the prejudice which has so long existed against the Angora venison as a food.

There are more goats in this immediate vicinity than there are in any other one community, there being nearly 18,000 head, ranging from 300 to over 2,000 head in each flock. The average price obtained for our mohair, for a six months' clip, was 23¢ cents per pound. This is a good average, and is self-evident as to the grades of our goats.

There are four growers of goats who are paying special attention to the breeding of fine stock, and the result during the past three years has developed some very fine stock, and for which good prices have been obtained.

In the writer's opinion, there is a great future before the Angora goat, because of its many fine points, and the valuable uses that can be made of it on a farm. The hair from an Angora makes a fabric that rivals that of silk. A good goat will produce from four to six pounds of this class of mohair, which ranges in price from 25 to 40 cents per pound, according to the length, quality and luster of the hair.

The most valuable service that can be had from an Angora goat on a farm is in clearing brush land. There is nothing that kills brush and trees quicker than the constant nibbling away of the tender leaves and bark which constitute the best food for goats, although they will eat any class of food that is fed to domestic animals. There is no reason in the world why the Angora venison should not be considered as dainty a meat as that of the deer. If the health of the animal is a criterion as to the purity of the meat, there is no meat as pure as that of the Angora goat.—E. H. Johnson, in St. Louis Republic.

A Shocking Calamity

"Lately befell a railroad laborer," writes Dr. A. Kellett, of Willford, Ark. "His foot was badly crushed, but Bucklen's Arnica salve quickly cured him." It's simply wonderful for burns, boils, piles and all skin eruptions. It's the world's champion healer. Cure guaranteed. 25¢. Sold by J. T. Day, Hazel Green, or S. S. Cumbs & Sons, Campton.

Sampson Hissed.

Public sentiment regarding the Schley-Sampson controversy is being very clearly demonstrated at one of theatres in New York, where a clever imitator impersonates in appearance each of the admirals. On a recent afternoon and again at night the audience soundly hissed the representation of Sampson and broke into cheers when Schley appeared. The demonstration was more significant and pronounced because the imitation of Sampson was given first, and the spectators did not know that Schley was coming.

A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is De Witt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. H. F. Pieratt.

Geo. W. Lane, Powamo, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion I always offer to pay for it if it fails. Thus far I have never paid."

Original Old Sleuth.

Ex-United States Senator "Tom" Carter, of Montana, has the type of face that, decorated as it is by a neatly trimmed white chin whisker, suggests the typical gentleman farmer as seen in the cartoons of the comic paper. The Senator was coming out of the Waldorf-Astoria the other morning with an old travel-battered handbag in his hand. As he reached the sidewalk a rather ordinary looking young fellow came up to him and said:

"Excuse me, but are you not Mr. Gray, of Atlanta?"

Mr. Carter looked at him for a moment in an effort to discern whether the fellow was in earnest or whether this was really the introductory part of the confidence game. Finally he decided it was the latter, and he said softly to the questioner:

"No, Bub, you didn't come any way near it. My name is Vidocq. I belong to the Government Secret Service, and I am the original Old Sleuth."

It didn't take the young man long to get out of sight around the corner.

Many physicians are now prescribing Kodol Dyspepsia Cure regularly having found that it is the best prescription they can write, because it is the one preparation which contains the elements necessary to digest, not only some kinds of food, but all kind, and it therefore cures indigestion and dyspepsia no matter what its cause.

KENTUCKIAN

Writes a Terrible Warning to Wyoming Cattle Men.

Allen N. Cisco, West Liberty, Morgan county, Kentucky, in an open letter to the Wyoming Tribune warns the assassins of Wm. Nickel and the men who attempted to assassinate Kels P. Nickel and murdered his son, that friends and relatives of the family in Kentucky will not tolerate any further attack upon the Nickel family. Cisco concludes his letter:

"We, the friends of the Nickel family right now warn the hyenas who are seeking the life of Kels P. Nickel and his little boys that they have gone far enough and that we don't intend for that family to be slaughtered. If such a thing happens there will be another day. Again we say to those murderers and assassins, beware."

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering with a cough, doctors told me was incurable. One bottle relieved me, the second and third almost cured. Today I am a well man."

REGAIN YOUR HEALTH WITH

VITA-ORE!

NATURE'S DOCTOR FOR MANKIND.

IT CURES Rheumatism, Diphtheria, La Grippe, Bright's Disease, Blood Poisoning, Kidney, Liver and Stomach Troubles, Female Complaint, Catarrh and General Debility.

IT CURES WHEN ALL ELSE FAILS!

ROAD THE TESTIMONY OF TWO WELL KNOWN CITIZENS OF WOLFE.

Mr. Cooper, Hazel Green, Ky.: I purchased some of the Vita-Ore of you in the latter part of March, and after taking about a half-pint of the Vita-Ore Elixir my nerves were as steady as when I was 16 years of age, and I am now past 75. For more than a year I had been trying all the patent medicines and nostrums I could hear of to build myself up, but nothing did me any good until I used Vita-Ore, which my wife brought me from your house. After using it a week I went out and did three days' hard work as I have done in 25 years, and I was not more fatigued than I was 25 years ago over the same work. It is the greatest medicine in the world, and I want everybody in the mountains to know what it did for me so they may try it. Hoping every one who has that tired feeling incident to old age will buy Vita-Ore of you and give it a fair trial. I remain, thankfully yours for putting me on to this remedy.

JAMES LACY.

I can vouch for every word Mr. Lacy says in the above. I am his wife and bought the medicine of Mr. Cooper for him, though I did not have much faith in it, because we had tried so many things that did no good. I have also used Vita-Ore, and am stronger and in better health than for years, which I attribute to its use.

(MRS.) SOUTHEY LACY. Lacy Creek, Ky., June 1, 1901.

Vita-Ore is \$1 a package, which makes 1 quart of Elixir. Dose—One teaspoonful in glass of water. Mailed to any address on receipt of price. Address

SPENCER COOPER, HAZEL GREEN, KY.

The Agricultural and Mechanical (State) College of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, each of which extends over four years and leads to a degree. Post-graduate courses of study are also provided, leading each to a master's degree. Each course of study is organized under a separate faculty. The general faculty numbers more than thirty professors and instructors. County Appointees receive tuition, room rent in dormitories, fuel and lights, and if they remain ten months, traveling expenses. The laboratories and museums are large, well equipped, comprehensive and modern. The last Legislature appropriated \$30,000 for a college home for young women, and a drill hall and gymnasium has been provided for men. Military tactics and science are fully provided for and required by Congress. Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply. Last year the matriculation list was 620. For catalogues, method of obtaining appointments, information regarding courses of study and terms of admission, apply to JAMES K. PATTERSON, Ph. D., LL. D., President, or to Prof. D. C. FRAZER, Business Manager, Lexington, Ky. Fall Term begins September 10th, 1901.
